

Email sent to Public Representatives 23 January 2025

Dear Public Representative,

Please note, this is a no-reply email address. Please feel free to email queries to oireachtasliaison@nationaltransport.ie

We are emailing you to provide a status update in relation to the BusConnects Dublin Core Bus Corridors specifically the Templeogue/Rathfarnham to City Centre Core Bus Corridor Scheme.

The NTA applied to An Bord Pleanála in April of 2023 for approval of the Scheme under Section 51(2) of the Roads Act 1993 (as amended), along with a submission for confirmation of the associated Compulsory Purchase Order.

An Bord Pleanála has now issued its decisions, being to approve the Scheme, subject to conditions, and to confirm the Compulsory Purchase Order (CPO). A copy of the Scheme approval is available [here](#) and a copy of the CPO confirmation is available [here](#).

Following An Bord Pleanála's determinations, various public notices and notifications are required to be issued and this will be published/issued at the appropriate time.

Construction Stage:

Subject to completion of various processes, the NTA will now develop the construction sequencing to include the Templeogue/Rathfarnham to City Centre Core Bus Corridor Scheme taking account of approvals received, along with documentation to allow procurement to commence for the construction stage of the Scheme.

It is expected that all twelve corridors will be completed in 2030 with the first construction contracts to be awarded early in 2025 and on-site construction commencing in the second half of this year. The construction of the corridors will be delivered on a phased basis in order to reduce the traffic impacts that could arise should all twelve be constructed concurrently. In relation to the Templeogue/Rathfarnham to City Centre Core Bus Corridor, it is likely that the Scheme will be implemented in the second half of the overall Core Bus Corridor construction programme.

In the coming months, detailed communication arrangements for the construction phase will be developed to ensure that residents, community groups, businesses and public representatives are kept fully informed and have access to relevant liaison personnel during the delivery of the Scheme.

Yours sincerely,

BusConnects Team
